TIPS *Keep it Simple!*

- Arrange your material in a logical progression.
- Arrange materials in columns.
- Do not try to squeeze too much on to the poster.
- Use only 2 or 3 colors in the poster: too many colors can be distracting.
- Select font colors and background colors to maximize contrast: A dark font on a light background is more easily read than vice versa.

- To emphasize a point, use bold or italics rather than underlining as underlined words can be more difficult to read. Upper and lower case type (rather than ALL CAPS) is easier to read, even in headings.
